PATTER

It's a great kindness to trust people  
with a secret. They feel so import-  
ant while telling it.  
"Positive" means being mistaken at  
the top of one's voice.  
Poise: The result of not being a-  
shamed of anything.  
Alimony: The high cost of leaving.  
She: She has a nice figure  
He: Yes, she wears her food well.

Marriage is a deal in which a man  
gives away half his groceries in  
order to get the other half cooked.

I don't dance, but I'd love holding  
you while you do.

STILL WANTED -- Two bedroom house or  
apartment unfurnished. W.E. Edmunds

DISCOUNT ON VITAMINS

The REA Athletic Association is pleased to  
announce that it has arranged for REA'ers to  
purchase vitamins at a discount of from 30 to  
50 percent (depending upon quantity purchased)  
under the regular retail price. The vitamins  
are the product of a well-known drug company  
and are very reliable. Anyone interested in  
purchasing vitamins should communicate with  
the REA nurse, Miss Lillian Honig, room 460.

Louise Robinson just back - from jaunting;  
Marian Murray causing a bit of commotion with  
her Tru-View camera with a galaxy of Earl  
Carrol gals; Pat Cratty with the most beauti-  
ful bundle of male in the shape of a Marine  
Lt.; Perc Smith returned to the fold from  
military furlo; Betty June Morgan with her  
feet turned around or her boots turned around -  
she hasn't yet made up her mind which but it  
wasn't New Years morn; all the boys rushing  
'round and 'round and 'round trying to get  
their reservations for San Antonio but it  
looks as though some of them may have to ride  
the caboose - C. Sullivan lost 14 lbs. in one  
day trying to get the D&C boys straight -  
what a job; and then there are those who  
really thought they should go but no soap; and  
all those not in the Texas mood are trying to  
get to "Oklahoma"; the cold nip which brought  
73 inches of snow in N. Y. state (that's Ossie  
Briden's story) and Ossie can't find a single  
excuse to go up that way to help light up  
rural America but come the spring freshets  
with those silvery trout swinging their tales  
down the rapids and you'll find Ossie just  
bursting to help those poor farmers who  
haven't a single elec. button to their name  
and Col. Sass is probably going to find more  
missionary work that has to be done in Florida  
with H(andsome) Clarke to help him - indubit-  
ably.

# DIDJAKNOWTHAT

Reaction has set in and everything seems quite dull and drab by comparison after all the holiday festivities. There is a bit of unfinished business though in connection with the N. Y. E. party at the Gibson for Eve Shalkrause who played for the merry-makers has sent a note of thanks for the "note of appreciation with its generous inclosure" and also says that REA shall always mean to her "Real Entertainment A-la-carte" and that she hopes to play for us "agayne, agayne and agayne." The participants of that get-together (and should anyone be interested in just who was there, B. Bohannon can supply the list, indubitably) - want to thank Jean Espenshield for allowing them to make shambles of her dining room but it seemed like such a good idea at the time. Of course for a few laughs - if one dares - there is always the Thursday night bowlers from which one can derive much fun if one happens to be in the proper place at the proper time. Last week Promoter Gerth took a most elegant belly-bumper and did he glare and no one snickered a snick on account of they had visions of what it might do to their E.R. come May 15th and the week before B.(oy) W.(onder) took such a zing to the alley that it actually jarred his job description which he takes veddy, veddy seriously - or did. But when it comes to really tossing that sphere around Martha Reno is right out in front. Of course 'twas too good to happen on a regular night of endeavor with the league but Martha rolled up a score of 266 for one game with a total of 599 for three - eight strikes in a row and two spares - BRAVO! Then there is that Diviz where there is never a dull moment. Someone believing that every little movement has a meaning all its own wants to know all about them movements and them meanings and so 'tis just one (censored) report after another until they hardly have time to keep track of the government's funds or their own for that matter, and now one of the master minds has thought up another cute little report which they have to get out in four days or else - says he!!! But they're also generous souls for they give everyone 30 minutes of "unallocable" - whatever that is - time in which to do this or that for all Fins are notorious thisers and thaters but when all is accumulated it makes a right tidy sum of some 2000 or more hrs/Mo. kicking around unaccounted for. Some wag has suggested that those hours should be given as a prize to the Fin who comes in with the best, and of course, true, story each morn on account of they're going to erect little cubicles, so Padres Gilliland and Early can hear early matin confessions. THAT should be good - Ooh! La La, what lurid tales will come to their innocent but receptive ears!! And did you see J. B. Hegge's beautiful, beautiful son - John took great care not to introduce him to anyone under 95 summers, more or less, but the pretty young lassies took a good look at him and the golden flying boots which adorn his uniform. Those he earned for returning to the American lines the hard way - a long, long trek out of Naziland. Vive le Hegge! Perc Sachs and J. Warner are complaining about certain surplus property which is being sent to them. They are very bitter because the cigars have bobby-pins in them but cigars don't sound like surplus property but

more like "gratuities of which no one is supposed to make acceptance of any", and they better get out their general orders, administrative memos or what-have-you and brush up on their home work. Margaret Chapel, of the Personnelers, has left us for Kansas City where she will be a trainee with the Civil Aeronautics Admn. for the next six months and may luck go with her. G&T Section boasts of a very versatile personnel - Herb Bryan can preach the nicest sermons and if you don't believe that one you should get hold of one of those dictaphone records on which he was going to town the other day, Mr. Helmholtz says he has no talents "to speak of" but his 7 yr. old daughter is a toe dancer, Mr. Mezger speaks a number of languages including Spanish and the sign for which he is going to have more use than any of the others if he sticks around here; Mr. Millican is a composer of songs and has to his credit the lyrics for that haunting melody "The World is Waiting For The Sunrise" and numerous others but he has also done a lot of research with radar. He is being drafted by the War Dept and is going to D.C. for further research work - they didn't say whether it was radar or music but suppose it is radar on account of there's a war on and all the bird seed is being sent up to Surplus Property, so if you should see Sir R. Beall, Uncle B. Lawson, M. Adler and G. Vaughn tearing madly along the 11th floor corridors just rest assured that Perc and J.W. have gone into their routine with a duet which will approximate the rumblings of Vesuvius or Old Faithful. J. Cobb and B. B. Winsett are so lonesome in their new office which is located so very, very far from the firing line that they call a meeting every 30 minutes, first so they can keep a lot of boys out of mischief and secondly the more they get in the room the warmer it becomes and for a time they thought they were going to have to take to ear muffs. But cold or no cold the ear muffs are out on account of they are liable to miss some of those bar sinister brain-children of denied paternity which float and float and float.

HERE, THERE AND EVERYWHERE: Rose Mary Dodds as proud as punch of her little brother who is now Lt. John Dodds, Pilot of a bomber crew and who will soon report to some theatre of war; Lenore Kolas back after a bout with near pneumonia which she contracted from over work in trying to figure out all other than "unallocable" time; I. Lewis back from the hospital after an appendectomy;
